

Cafe Scientifique

Hayle, Cornwall

We're at the Foundry Restaurant,
Hayle again on
Monday 12th March at
7pm for 7.30 start
for another evening of informal, lively
debate over a coffee or drink

Our guest is:

Prof. John Dupré

"Putting the microbes back in biology".

This relates to a big interest John Dupré has about how views about evolution, species, even what an organism is, are based on a view that ignores at least 90% of life (microbes).

John Dupré was appointed Professor of Philosophy at Exeter University in 2002 and is a full-time Director of Egenis. He is an author and participated in Melvyn Bragg's programme on Radio 4 - 'In Our Time'.

don't forget it's free

if you are coming along it would be appreciated if you could email: lfc@innocom.co.uk or tel: 01736 794154
